1. Introduction

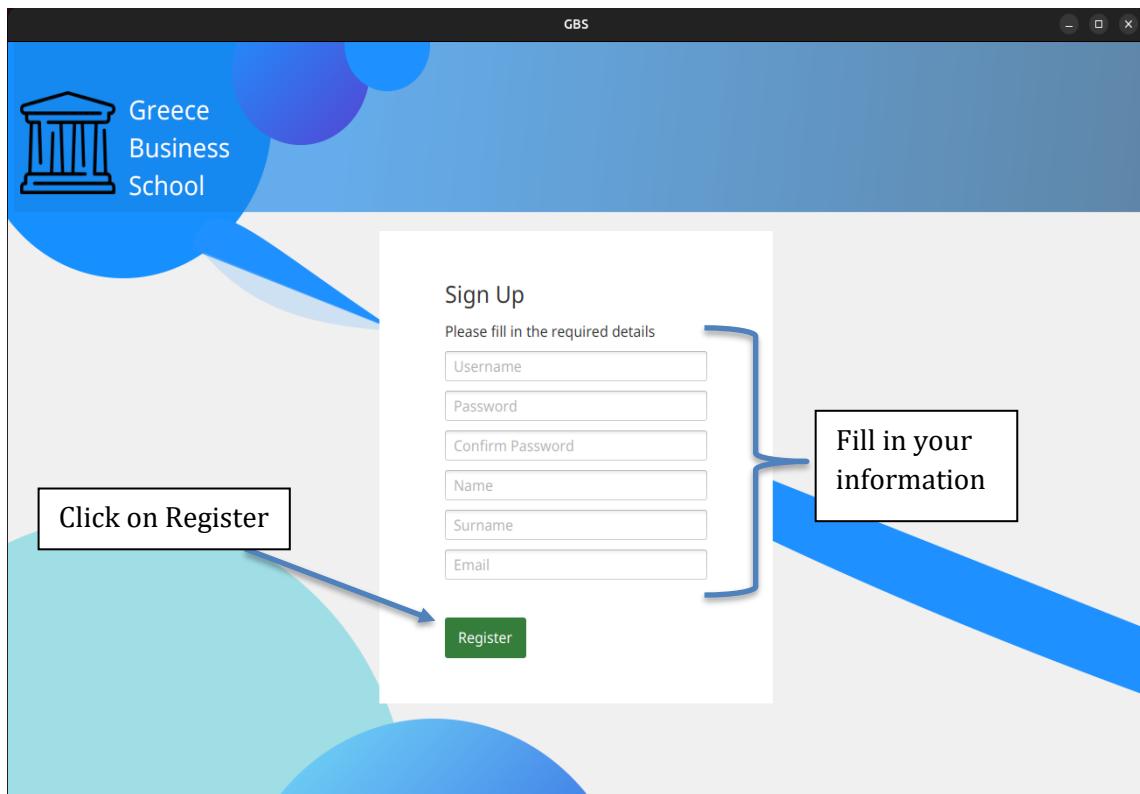

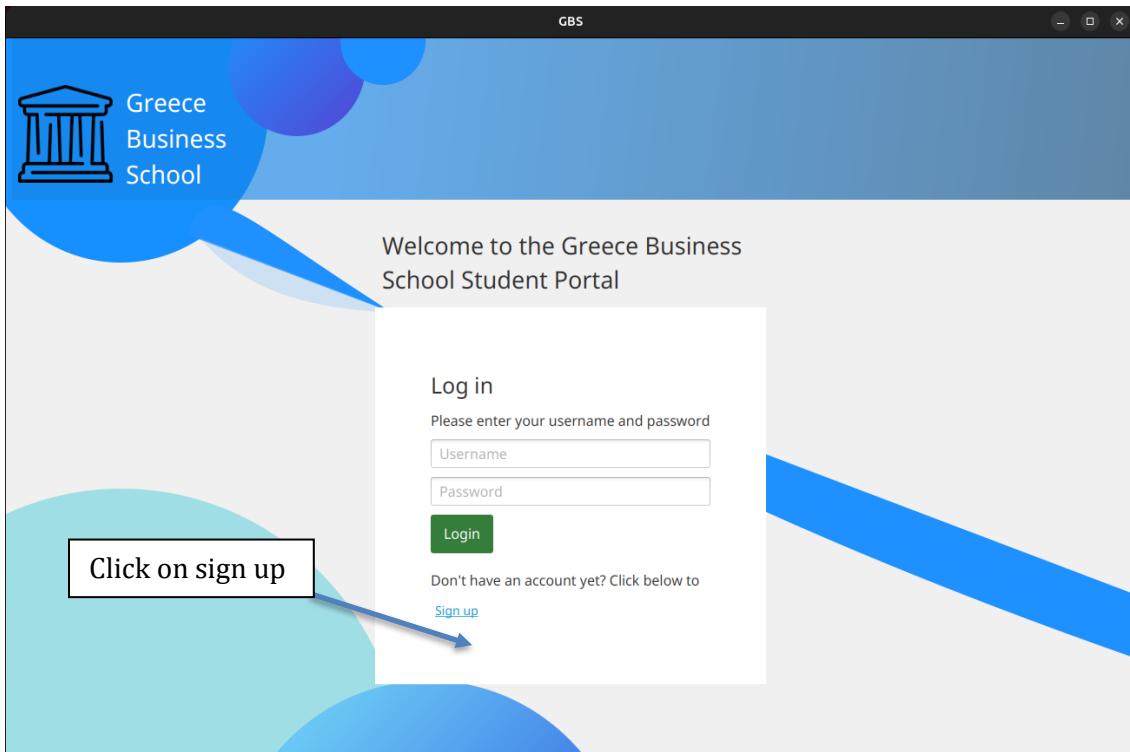

Welcome to the Greece Business School e-learning platform! This manual is designed to help you navigate the system effectively, so you can focus on your studies and succeed in your academic journey.

2. Getting Started

- How do I log in?

- How do I sign up?

3. Navigating the Dashboard

The screenshot shows the main dashboard of the Greece Business School (GBS) platform. At the top, there is a blue header bar with the GBS logo, the text "Greece Business School", and navigation icons for Home, Studies, Account, and Help.

The main content area is divided into several sections:

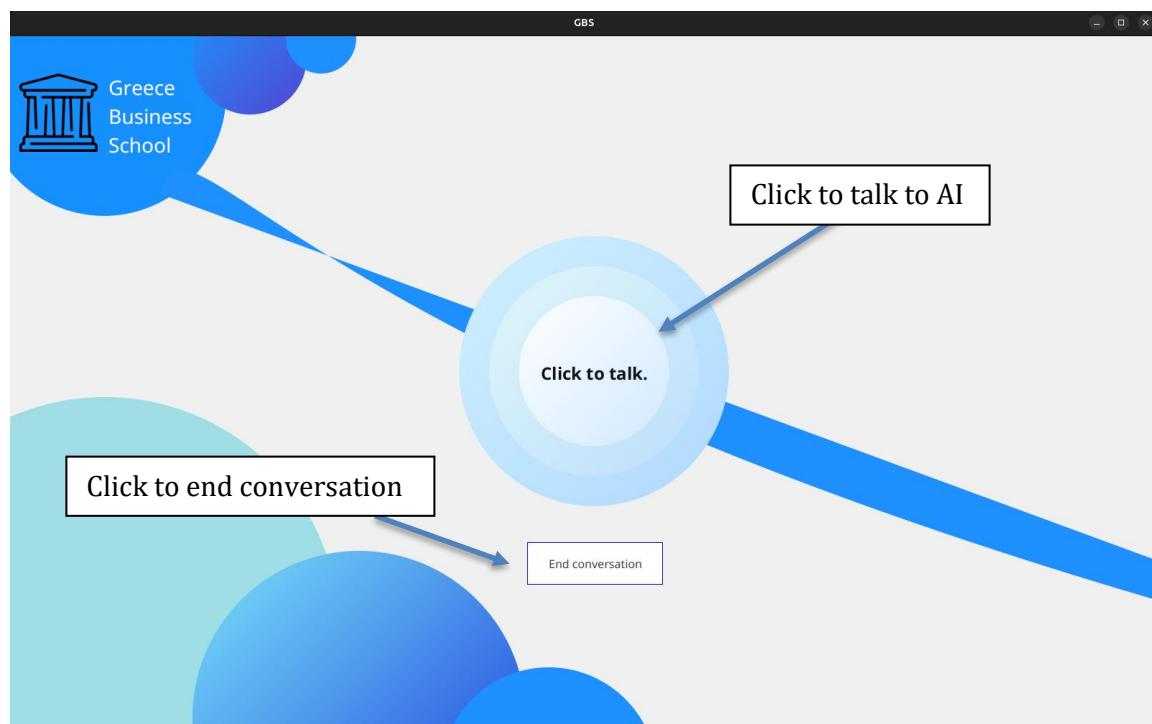

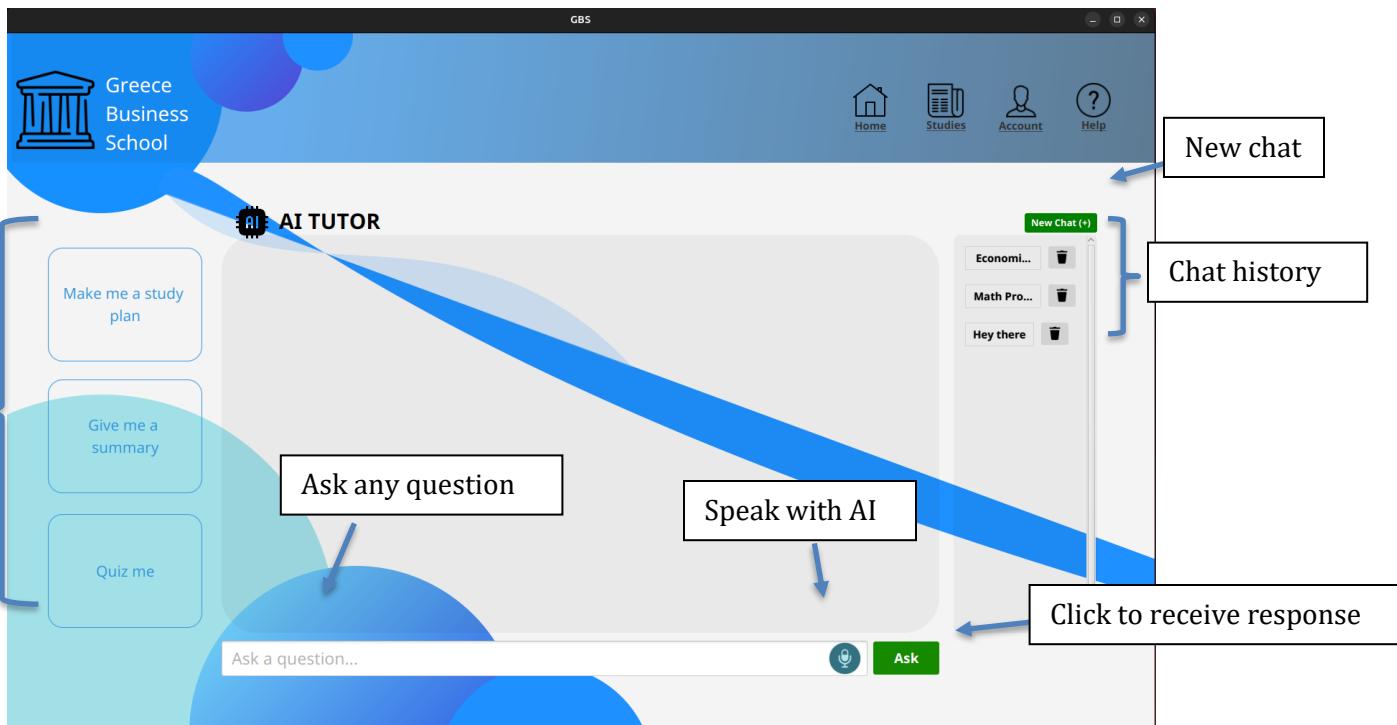

- Courses Area:** A grid of six course tiles. The visible titles are Economics, Big Data Analytics, Mathematics, Successful Projects, Macroeconomics, and Microeconomics. A bracket on the right side of the grid is labeled "Courses area".
- AI Tutor:** A section titled "AI TUTOR" featuring a welcome message: "Welcome to the AI Tutor. AI Tutor provides personalized learning experiences at Greece Business School, offering support in various subjects and helping you enhance your skills at your own pace." Below the message is a green button labeled "Begin with AI Tutor". A bracket on the left side of this section is labeled "AI tutor".
- Quiz Area:** A section titled "QUIZ AREA" featuring a test message: "Test your knowledge and never miss out on an exciting opportunity to learn and grow! Learn with the latest quizzes right here!" Below the message is a green button labeled "Begin Now". A bracket on the right side of this section is labeled "Quiz area".

4. View courses

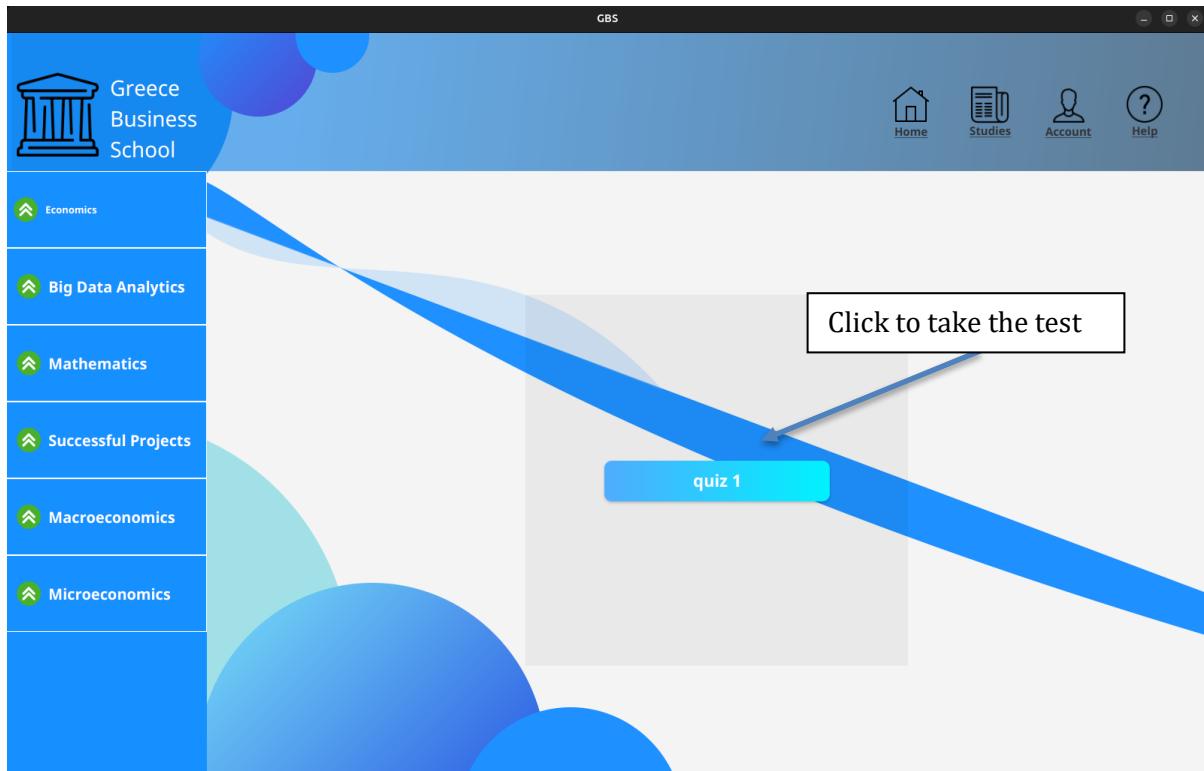

The screenshot shows the GBS course interface. On the left, a sidebar titled 'Sections' lists course modules: 1. Introduction to Economics, 2. The Law of Supply and Demand, 3. Opportunity Cost and Trade-Offs, 4. Inflation and Its Effects, 5. Global Trade and Comparative Advantage, and 6. Conclusion – Thinking Like an Economist. The main content area displays the 'Economics' course details. The title 'Economics' is at the top, followed by a descriptive text box: 'This course provides a foundational understanding of economics, exploring both microeconomic and macroeconomic principles. Students will learn how individuals and governments make choices, how markets function, and how economic forces shape our world. Through real-world examples, learners will analyze key economic concepts like supply and demand, opportunity cost, inflation, and global trade. Whether you're pursuing business, politics, or simply want to understand the world better—this course is your gateway into the economic way of thinking.' Below the text is a 'Course Description' box with the text: 'Course Description'. A blue arrow points from the 'Course Description' box back up towards the descriptive text.

The screenshot shows a detailed lesson from the 'Economics' course. The sidebar on the left remains the same. The main content area displays a lesson titled '1.1. Begin with economics'. It includes a media player with a green play button, a red stop button, and a blue 'Click to stop' button. Below the media player is a text box: 'Economics is more than just money—it's about choices. At its core, economics is the study of how individuals, societies, and governments allocate scarce resources. These resources—time, money, labor, materials—are limited, but our wants and needs are practically unlimited. This fundamental tension between scarcity and desire drives economic decision-making.' To the left of the text box is a blue 'Click to listen' button. The next section is titled '1.2 Micro and Macro', which includes another media player with a green play button and a red stop button. Below it is a text box: 'Economics is divided into two main branches. Microeconomics examines the behavior of individual households, firms, and markets. It focuses on how prices are determined, how goods and services are allocated, and how resources are distributed. Macroeconomics, on the other hand, looks at the economy as a whole—studying national income, inflation, unemployment, and economic growth.' At the bottom of this text box is the text: 'By learning economics, you'll develop critical thinking skills, gain a better understanding of global and local issues, and become an informed citizen capable of making sound financial and policy decisions.'

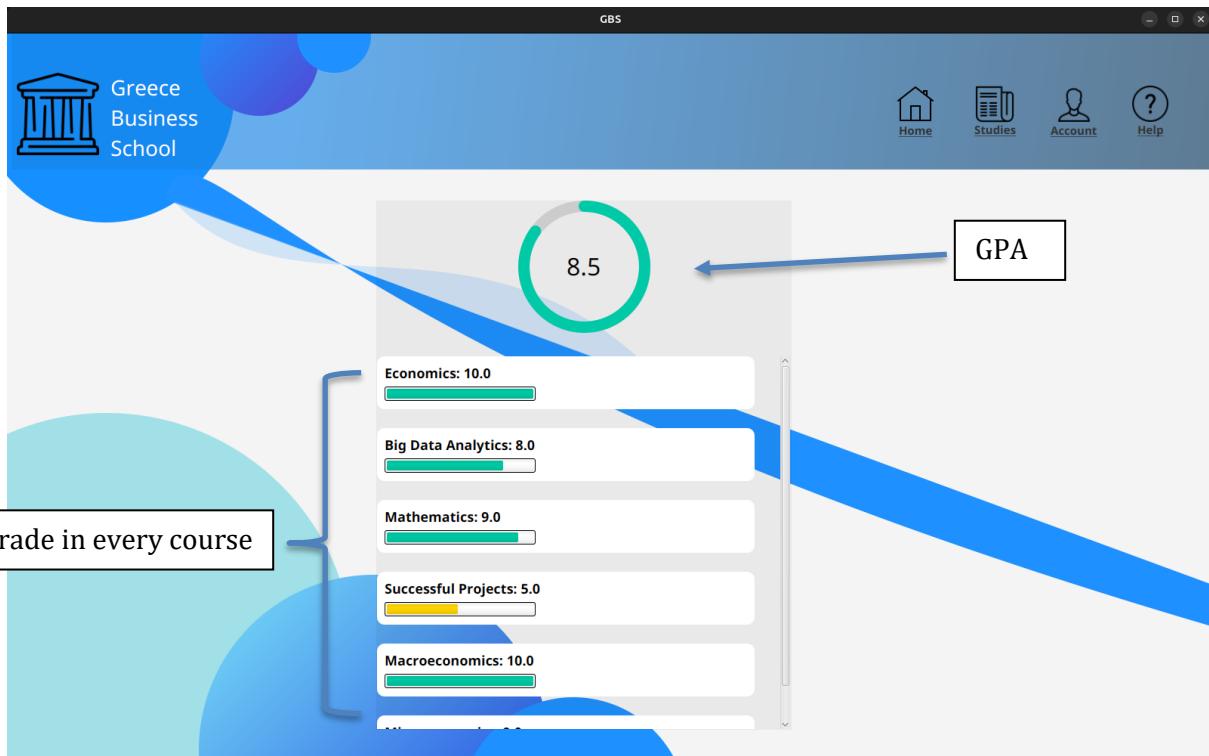

5. AI Tutor

6. Quiz Area

7. GPA

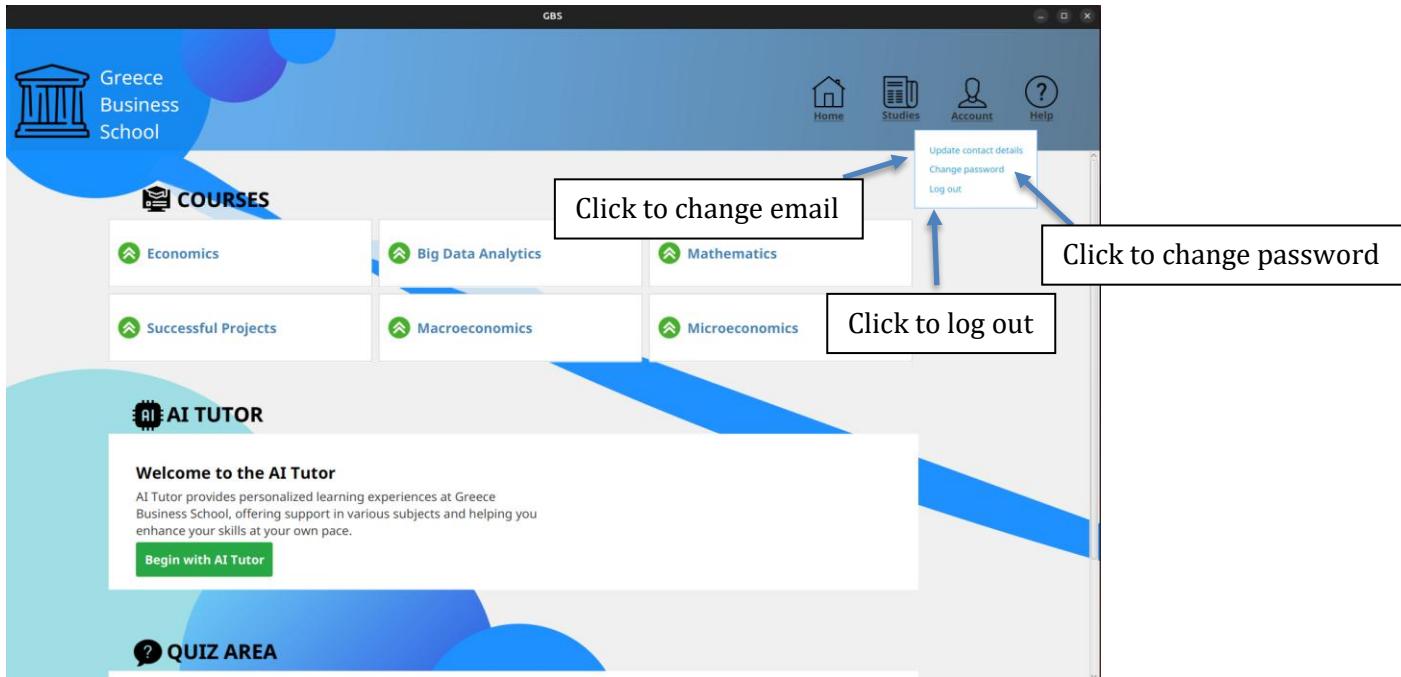

8. Studies Panel

The screenshot shows the Studies panel of the GBS application. At the top right, there are navigation icons for Home, Studies, Account, and Help. A button labeled "Click to view GPA" is located above a "View GPA / Print certificate" dropdown menu. Below the menu, a "Click to get the certificate" button is visible. The main area displays course offerings:

COURSES
Economics
Successful Projects
Big Data Analytics
Macroeconomics
Mathematics
Microeconomics

An "AI TUTOR" section includes a welcome message and a "Begin with AI Tutor" button. A "QUIZ AREA" section is also present at the bottom.

9. Account Panel

10. Contact & Support Information

If you encounter any issues or have questions about the platform, our support team is here to help you.

Technical Support
